13. Ghost Galleon Bay

Supernova Cup · upgrade blueprint · src/kart/tracks/galleon.ts

Where it is now

3.2 km: quay and town, lighthouse glide or rope bridge, wreck deck and bow jump, islet leap, sea cave, causeway, west hills or smugglers' tunnel. Lap 2 tide; last lap phantom galleon.

What is wrong

The ships are just raised decks; the sea does nothing.

Core mechanic

The rocking ships. Decks tilt left and right with the swell, so you lean into them and your line changes. Low routes flood with the tide.

Signature moments

- The length of a rolling deck, then a leap ship to ship as they rise and fall.
- Climbing the rigging up to a high deck.
- A raft section ridden on the waves.

Layout changes

- Make the two wrecks rock.
- Add the raft crossing as a fork.
- Keep the lighthouse glide and the sea cave.

Lap changes

- Lap 2: the tide rises and floods the low road.
- Last lap: the phantom galleon rams the ships and they tilt further.

Engine work needed

- Moving, tilting road pieces (rocking decks).
- Water level and floating platforms (raft).
- Rivals that lean.

Rivals

- Rivals time the ship-to-ship leap with the swell.

Done when

- Laps of 50-60 s for a good driver; all 3-lap test races finish with no errors.
- Rivals use every route and the core mechanic, with no more than 2 rival falls per race.
- The core mechanic is in play for at least half the lap, not just one set piece.
- A blind test: a screenshot or a 10-second clip of this track could not be mistaken for any other track.
- Item rows are never on the start line; nothing solid blocks a road by accident.
